Sean Blayke L. Rojas

Senior Front end Developer

👤 Profile

With years of front-end development experience, I excel in modern front-end technologies, showcasing a proven track record of delivering successful projects. Enthusiastic about leveraging my expertise and creativity to propel your team's growth.

💼 Employment History

Senior Front-End Developer at Outstaffer (Remote)

July 2023 — Present

- Key contributor to front-end architecture, implementing strategies for code modularity and maintainability. Tasks included restructuring components, optimizing file organization, and implementing scalable practices.
- Executed seamless conversion of mockups into functional interfaces. Collaborated closely with backend developers to ensure smooth integration of API services.

Front-end Developer at Flexisource I.T (Remote)

July 2021 — July 2023

- Developed and maintained features for a data analytics web application serving 20+ real estate entities, enabling real-time insights and effective data management.
- Worked closely with the backend developer to ensure seamless integration of API services from PHP symfony framework.

Front-End Developer at High Output Ventures (Remote)

January 2020 — June 2021

- Implemented new features for an established web application specializing in real estate stock trend analysis, serving a user base of over 200+ customers.
- Participated in codebase discussions and brainstorming for new and existing projects, fostering collaboration across involved teams.

Front-end/ Template Developer at Reed Elsevier Philippines

January 2015 — January 2020

- Collaborated in team efforts to maintain multiple static judicial court websites across various U.S. counties, primarily focusing on content updates and timely HTML/CSS adjustments.
- Streamlined the conversion of electronic forms sourced from diverse U.S. county websites using HotDocs Automator.

🎓 Education

Bachelor of Science in Information Technology, Quezon City Polytechnic University

January 2013
